Appl. Statist. (1991)
40, *No.* 3, *pp.* 517–520

Author Index: Vol. 40, 1991

	Page
Amin, R. W. and Ncube, M. M. Variable sampling interval combined Shewhart–cumulative score quality control procedure	1
Baker, R. D. and Tilbury, J. B. Letter to the Editors	337
Benjamini, Y. and Igbaria, M. Clustering categories for better prediction of computer resources utilizations	295
Blumenstein, B. A. See under *Morgan, W. M.*	
Buxton, J. R. Some comments on the use of response variable transformations in empirical modelling	391
Chhab, N. B. See under *Cholette, P. A.*	
Cholette, P. A. and Chhab, N. B. Converting aggregates of weekly data into monthly values	411
Chow, S.-C. See under *Shao, J.*	
Crowder, M. A statistical approach to a deterioration process in reinforced concrete	95
Day, S. J., Royston, J. P., Pratt, J. W. and Haines, P. D. A closed form approximation for calculating the percentage points of the F and t distributions (Letter to the Editors)	171
Diggle, P. J. and Fisher, N. I. Nonparametric comparison of cumulative periodograms	423
Evans, D. A. See under *Smith, L. A.*	
Evett, I. W. See under *Wakefield, J. C.*	
Farebrother, R. W. A mixture model with incomplete sample selection information (Letter to the Editors)	176
Farnum, N. R. A fixed point method for finding percentage points	123
Fearn, T. and Maris, P. I. An application of Box–Jenkins methodology to the control of gluten addition in a flour mill	477
Fisher, N. I. See under *Diggle, P. J.*	
Gail, M. H. See under *Rosenberg, P. S.*	
Gamerman, D. Dynamic Bayesian models for survival data	63
Gates, J. See under *Planitz, M.*	
Gilks, W. R. Tissue matching and matchability in kidney transplantation	317
Gong, G. See under *Whittemore, A. S.*	
Haines, P. D. See under *Day, S. J.*	
Heitjan, D. F. and Little, R. J. A. Multiple imputation for the fatal accident reporting system	13
Henderson, R. and Milner, A. Aalen plots under proportional hazards	401
Hoaglin, D. C. and Lin, J.-T. Normal approximations for pocket calculators (Letter to the Editors)	174
Holtbrügge, W. and Schumacher, M. A comparison of regression models for the analysis of ordered categorical data	249
Igbaria, M. See under *Benjamini, Y.*	
Jones, P. W. See under *Lewis, P. A.*	
Kemp, A. W. See under *Kemp, C. D.*	
Kemp, C. D. and Kemp, A. W. Poisson random variate generation	143
Kenward, M. G. Corrigendum: A method for comparing profiles of repeated measurements	379
Kettl, S. Accounting for heteroscedasticity in the transform both sides regression model	261
Lewis, P. A., Jones, P. W., Polak, J. W. and Tillotson, H. T. The problem of conversion in method comparison studies	105
Lin, J.-T. See under *Hoaglin, D. C.*	
Little, R. J. A. See under *Heitjan, D. F.*
